BE IT FURTHER RESOLVED, That the following sums amounting to TWENTY-ONE THOUSAND NINE HUNDRED (\$21,900.00) DOLLARS are hereby appropriated to be paid out of moneys in the Road Tax Special Fund of the City and County of Honolulu, for the building and maintenance of roads and bridges in the respective districts named herein, said payment to be in pro rata monthly subdivision of said amount as stated in the schedule thereof herein contained:		
Honolulu District	Per Month.	Six Months.
Ewa & Waiānae District	2,000 00	\$12,000 00
Waiālaa District	1,000 00	6,000 00
Koolauloa District	450 00	2,700 00
Koolāupoko District	200 00	1,200 00

AND BE IT FURTHER RESOLVED, That the Auditor of the City and County of Honolulu is hereby authorized and directed to draw warrants on the City and County Treasurer for any of the sums named herein, or parts thereof, upon having filed with him schedules of salaries fixed by law, and other salaries, of donations named herein, of payrolls and of accounts for material and supplies, accompanied by original vouchers and certified by the Clerk as having been duly passed and allowed by the Board of Supervisors at any regular meeting, or any special meeting called for the purpose of considering expenditures:

AND BE IT FURTHER RESOLVED, That to make expenditures under this Resolution, it shall be necessary that all salary lists, items of donations, payrolls, items of material and supplies and accounts of general expenses shall, before being presented to the Board of Supervisors, be passed upon by a Committee or Committees and by such be reported to the Board of Supervisors with the recommendation of such Committee or Committees, and sums found to be lawfully due and payable may then be voted upon singly or collectively as convenient on a call of the ayes and noes. In the event of any such Committee failing or neglecting to so pass upon any such matters, or to make any recommendation in regard thereto, the Board may thereupon act.

AND BE IT FURTHER RESOLVED, That no payments under this Resolution be incurred in any month in excess of the monthly pro rata sums herein authorized.

Introduced by Supervisor DANIEL LOGAN.
Honolulu, T. H., December 7, 1909.

Approved this 18th day of December, A. D. 1909.
JOSEPH J. FERN, Mayor.

RESOLUTION 208.

Honolulu, T. H.,
November 16, 1909.
Resolved, by the Board of Supervisors of the City and County of Honolulu, Territory of Hawaii, that the sum of seven hundred dollars (\$700.00) be and the same is hereby appropriated out of the general fund for the installation of electric lights at Palolo Road, Kaimuki and Alewa Heights, District of Honolulu.

Introduced by Supervisor WM. A. KANE.
Approved JOSEPH J. FERN, Mayor.

10th—Dec. 21, 22, 23, 24, 27, 28, 29, 30, 31; Jan. 3, 1910.

RESOLUTION 211.

Honolulu, T. H.,
November 16, 1909.
Resolved, by the Board of Supervisors of the City and County of Honolulu, Territory of Hawaii, that the sum of four hundred and ninety dollars (\$490.00) be and the same is hereby appropriated from the general fund for the payment of claim known as "Water Sprinkler, Waiālaa Road District."

Presented by Supervisor J. C. QUINN.
Approved JOSEPH J. FERN, Mayor.

10th—Dec. 21, 22, 23, 24, 27, 28, 29, 30, 31; Jan. 3, 1910.

NOTICE

Payment of Water Rates.

As provided for in Chapter 45 of the Revised Laws of Hawaii, 1905, all persons holding water privileges or those paying water rates are hereby notified that the water rates for the six (6) months ending June 30, 1910, will be due and payable on the first day of January, 1910.

A failure to pay such water rates within fifteen (15) days thereafter will be subject to an additional charge of 10 per cent will be made.

All privileges upon which rates remain unpaid on January 10, 1910, are subject to immediate shut-off without further notice.

Rates are payable at the office of the Honolulu Water Works, Capitol Building.

J. M. LITTLE,
Superintendent of Honolulu Water Works.

Honolulu, T. H., December 20, 1909. 4497—Dec. 23, 27, 30, 31

NOTICE

Payment of Sewer Rates.

In accordance with Chapter 84 of the Revised Laws of 1905, all those holding sewer privileges or paying sewer rates are hereby notified that the sewer rates for the six (6) months ending June 30, 1910, will be due and payable at the office of the Superintendent of Public Works on the first day of January, 1910.

A failure to pay such rates within fifteen (15) days thereafter will subject the holder to 10 per cent additional.

MANUEL K. COOK,
Chief Clerk.

Approved: MARSTON CAMPBELL,
Superintendent of Public Works,
Department of Public Works, December 20, 1909.

RESOLUTION

Resolved by the Board of Supervisors of the City and County of Honolulu that the sum of eighteen hundred (\$1,800.00) dollars be and the same is hereby appropriated out of the general fund for the construction of a pile bridge at Waiālaa.

Date of introduction, December 21, 1909.
Introduced by Supervisor J. C. QUINN.

The foregoing resolution was, at a regular meeting of the Board of Supervisors of the City and County of Honolulu held on Tuesday, December 21, 1909, ordered pass to print on the following vote of the said Board:

Ayes: Ahia, Aylett, Cox, Kane, Logan, McClellan. Total: 6.
Noes: None.

Absent and not voting: Quinn. Total: 1.

D. KALAUOKALANI, JR.,
Clerk, City and County of Honolulu.
4502—Dec. 27, 28, 29, 30, 31.

KAUAI HAS ABUNDANT WATER

Chief Hydrographer of Hawaii So States

LIHUE, Dec. 25.—W. F. Martin, an Engineer of the Water Resources Branch of the U. S. Geological Survey, who has been appointed Chief Hydrographer for the Territory, and has been spending a couple of weeks on a preliminary survey of this island, in the complete Hydrographic Survey that was described in our last issue, returned to Honolulu on Tuesday afternoon, to continue his investigations on the other islands. Accompanying him on his excursion on this island, has been A. F. Knudsen, one of our residents, who take a great interest in the development of the Hydrographic and Topographic Surveys on Kauai, and who will probably have charge of the actual operation on the island after the Engineers arrive, sometime next month. Mr. Knudsen also took the W. G. Hall for Honolulu, on Tuesday.

To continue the report of their investigations, after arriving at Lihue, last week, which was begun in our last week's issue, they went on to Hanalei on Wednesday of last week, by automobile, arriving at the Hanalei Hotel at noon of that day.

Their first excursion was on horseback, accompanied by E. G. K. Deverill, up the Hanalei Valley as far as they could ride, easily, about six or seven miles, passing the last settlement on the way. This section of the valley, they discovered, was a great feeding ground for wild ducks, and they lamented the fact that they had brought no guns with them.

In order to explore that country more thoroughly, and learn more definitely of its water resources, Mr. Martin proposes, the next time he comes to this section, to take the trip up the Hanalei Valley to its head, near the top of Mauna Waialeale, and then strike downward along the headwaters of the Waiānae River, which rise in the top of the mountain very near to the source of the Hanalei River, and work down the valley until the intake and power plant of the Kauai Electric Company is reached.

The following day, Friday, they rode to this power plant in Waiānae Valley, and on up the Valley the five or six miles to the intake from its upper levels around over the table lands to the rich farming lands of the south and east sides of the island. For power purposes, however, the region is very valuable, and the Waiānae power house of the Kauai Electric Co. is at the present time engaged in carrying thousands of horsepower by wire across the island to pump water for the plantations on the arid but fertile south side of the island.

It is well known that there are great possibilities in the way of the development of the water and power on the north side, but just how far they may depend upon is unknown, as yet, and the main purpose of the hydrographers now is to find out just how far this water supply may be depended upon for those objects.

Returning from Waiānae on Thursday, the party traveled back as far as Kealia that same evening, stopping at Manager Myers' house at Kilauea for a brief visit on the way, and spent two days at the residence of Col. Spaulding, where the setting manager of Maake Sugar Co., Rufus P. Spaulding, son of Col. Spaulding, furnished them with horses and guides to enable them to investigate the water resources of the Kealia mauka of Kapaa lands.

On Friday they spent the day visiting the various ditches drawing water from the Kapaa stream and in traveling all over the Kapaa and Waipouli districts. The main ditches there have measuring weirs in them, located at several points in the upper sections, which were ordered put in by Superintendent of Public Works Campbell, and Martin took measurements of the water flowing down, both by finding the number of inches flowing over the weirs and by his current meter, finding approximately the same results by both methods. The figures obtained will be given out when he makes his report.

Anahola was the district visited on the following day, and here they rode up to the big Kanaha reservoir which supplies the Kealia lands, going up on the Anahola side and coming back on the Kealia side. Measurements were taken of the streams in this section also.

Through this section they found a good supply of game, and the wild chickens were so abundant that one of the native guides was able to catch a fine wild rooster by running him into a thicket of fern and holding him there. This prize was

COYNE FURNITURE COMPANY

enjoyed by the party at dinner that evening at the Valley House.

Returning to Lihue next morning, Knudsen went on to his home at Kekaha, to come back in time for the steamer on Tuesday, and Martin remained at Lihue to look over the Waiālaa and Huleia districts, which he did on Monday, getting at the same time some fine pictures of the upper and lower Waiālaa Falls. They returned to Honolulu on the Hall.

Mr. Martin will remain there until after the holidays and will then either go on with the same work on the other islands or come back to Kauai and help Knudsen get started with the hydrographic survey on Kauai, about the middle of January. In the meantime he will do some special work in the vicinity of Honolulu in connection with the water supply for that city.

He is very much interested in the conditions on Kauai and over the whole Territory. In these lines, and says he has been very forcibly reminded, during his investigations, of the great difference in the conditions which exist here and on the mainland.

One conclusion that he has come to as a result of his travels is that the water supply of these islands is abundant for all demands which can be made upon it, so long as it shall be properly utilized, and he

expects to be able to determine before he gets through with this Territory the approximate amount of water which runs to waste during floods, which should be conserved for the benefit of the dry lands, and which probably will be in the course of time.

LIGHTWEIGHT COINS. PLENTY ON COAST

San Francisco Call.—There are an alarming number of lightweight \$20 and \$10 gold pieces in circulation here, according to the warning given by Postmaster Fisk yesterday to postal employees.

The coins lack from \$1 to \$2 worth of gold each, removed from the edges by filing or grinding. But the sweaters have been unable to restore, except imperfectly, the rim and milling.

A comparison between good and tampered coins makes the detection of the latter easy. For this reason clerks accepting lightweight money must pay the loss.

The Birmingham Post says if the unionists are successful in the coming elections a tariff bill will be presented in the British parliament.

A farmer's Men of Socialism is an arrangement to have cheap flour and dear wheat.—Atchison Globe.
